

Lori Feine
Vice President, Supply Chain Management and Business Operations
Mindspeed Technologies

Ms. Feine was promoted to Vice President, Supply Chain Management and Business Operations, of Mindspeed in December 2006. She has served in various positions with Mindspeed since its inception, most recently as Executive Director Supply Chain since 2004. From 2001 to 2004 she served as Director of Customer Logistics.

Prior to Mindspeed, Ms. Feine was Director of Program Management at Conexant Systems holding various positions in Business Planning, Program Management and New Product Introduction.

Ms. Feine has over 25 years experience in the semiconductor industry with positions of increasing responsibility including Planning and Production Control at StorageTek, and managing the wafer fabrication and planning organizations at Unisys and establishing the supply chain function for PCSI.
