

Jeanette Sanchez brings a 20+ year career and tenure with Fortune 500 companies in the medical device, consumer packaged goods, and manufacturing industries. She has conducted business in multiple US locations, Belgium, the Netherlands, Switzerland, Puerto Rico, Mexico, Costa Rica, Malaysia, Thailand, Indonesia, China, and Hong Kong. Jeanette has held leadership roles in strategic planning, corporate reorganizations, and business transformation events and brings a rich understanding of IT related to global supply chain management, manufacturing, retail, product design and development, finance, corporate administration, quality assurance and regulatory affairs.

Most recently as Vice President Global Business Solutions at Mattel, Inc, Jeanette was responsible for supply chain and corporate technologies and completed an eight month assignment in Asia managing several mission critical projects for the company. Prior to Mattel, Jeanette was Vice President of Americas IT for Bausch & Lomb and worked for Edwards Lifesciences, Baxter International and Allergan Medical Optics, both as an IT leader and business professional in Quality Assurance where she authored an ISO9001 Quality Systems Manual and led the recovery efforts of medical device master records after a plane crash into campus facilities.

Jeanette is well practiced in the application of regulatory standards & compliance including Sarbanes Oxley, HIPPA, COBIT, cGMP, 21 CFR Part 11, and ISO9001 and regarded as a subject matter expert in ERP, Product Lifecycle Management, Master Data Management, and IT strategy and governance.

Jeanette is a 35 year resident of Orange County where she lives with her husband and enjoys her time with family, travel, and power boating.
