Association for Women in Technology Networking Event: Drinks & Links

IRVINE, Calif., May 21st 2009 — There are dividends through the Power of Networking! There are many professional networking options and the only way to get to know people is to get out there and meet them. What better way to engage in business and networking than to participate in AWT's Drinks & Links!

Networking is not about accumulating business cards, but in doing something with them. And what you do with those cards – how you continue your relationship with the people you meet – dictates how these people begin to think of you. You can think of this as building your brand with your network. Your contacts should know who you are, know what you do, and ultimately prefer to work with you in the appropriate situation. This is how you can build professional relationships that will yield career dividends! Drinks & Links provides opportunities to:

- Expand your professional and personal contacts
- Gain visibility for your company
- Meet new clients and new friends
- Build your network
